OUTSOURCING Inc.

“Osaka Healthcare Pavilion” at Osaka, Kansai Expo Sponsorship as a Special Partner

-Concentrating the Technologies of OUTSOURCING Group, Propose Future Healthcare by AI Robot-

OUTSOURCING Inc. (Head Office: Chiyoda-ku, Tokyo; Representative Director: Takayuki Yamazaki; hereinafter “OUTSOURCING”) announces the sponsorship as a special partner to the “Osaka Healthcare Pavilion Nest for Reborn (hereinafter "Osaka Healthcare Pavilion"), an All-Osaka exhibition in collaboration with industry, government, academia and private sectors, at the Japan International Exposition.

**Osaka Healthcare
Pavilion
Nest for Reborn**

■Background of the Sponsorship

“REBORN”, which is the theme of the Osaka Healthcare Pavilion, includes the meaning that **"People will be reborn" and "We will take a new step forward."**

The management philosophy of OUTSOURCING is **“enriching the lives of people around the world by eliminating labor disparities and creating a fulfilling workplace”** and we have contributed to the resolution of various issues based on “Industrial DX” by building a bridge between people and technology. In this way, we agreed with the exhibition theme of the Osaka Healthcare Pavilion and the sponsorship was realized.

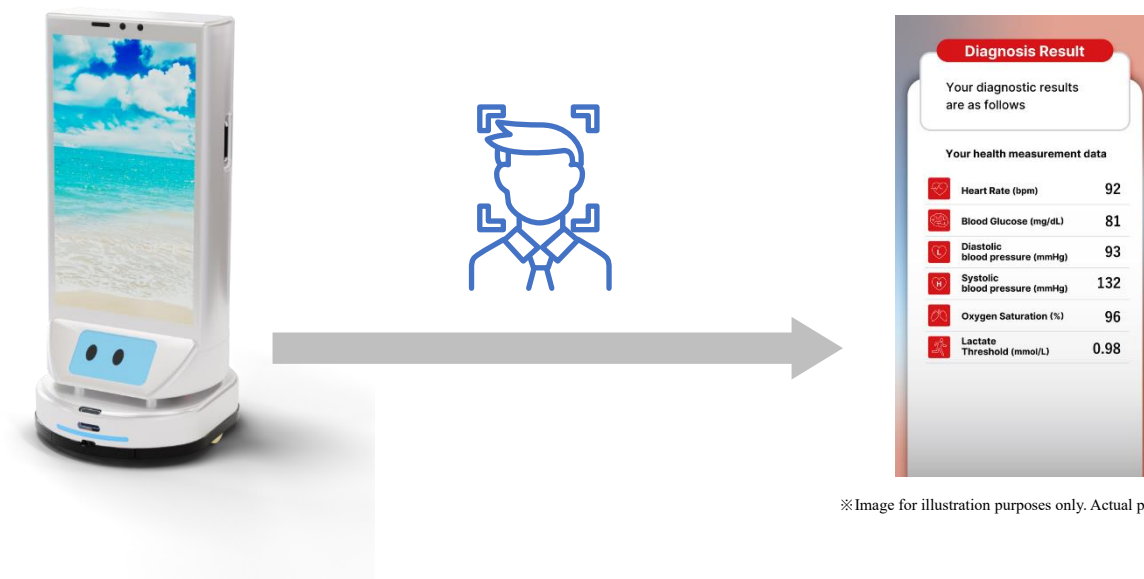

Recently, various challenges, such as a shortage of workers representing the 2024 Issue and a surge in prices, have overlapped to set the stage for a turning point in which work styles should be revised. As a company with more than 200 group companies both domestic and overseas, OUTSOURCING Group will promote DX of all industries with the techniques and experiences it has cultivated from many examples and aim to realize new ways of working without labor disparities.

■Details of the Exhibition

We are planning to exhibit “AI Concierge Robot”, a future healthcare robot that brings together the technologies of OUTSOURCING Group that will be developed for this exposition. It is an AI robot that combines the cutting-edge technologies handled by OUTSOURCING TECHNOLOGY Inc. based on the robot technology owned by Smart Robotics Co. Ltd., a group company. Currently, we are working to develop interactive healthcare by AI, and as a specific function, a smooth communication with visitors from around the world by integrating digital human technology compatible with multi-lingual voice and multiple generative AI technologies including search extension generation as well as a function for presenting their health status based on bio-

■About Osaka Healthcare Pavilion

“REBORN”, which is the theme of the Pavilion, includes the meaning that "People will be reborn" and "We will take a new step forward."

As we are all born into this world and go through life, we grow and age as "People" through various encounters and discoveries each day. The Expo will be an opportunity for all “People” to renew and reconsider their own way of life, discover and re-recognize their own values and purpose in life, and change their motivation and awareness for self-realization, and develop initiatives that contribute to their "REBORN" as a new person.
