## ■About Media Launch Event

At the media launch event, the exhibition contents for the Osaka Healthcare Pavilion were unveiled, with Mr. Hirofumi Yoshimura, Governor of Osaka Prefecture and Mr. Hideyuki Yokoyama, Mayor of Osaka City experiencing some of the featured displays.

At OUTSOURCING's booth, the AI concierge robot "Miraiya Links" designed to welcome and serve guests from around the world at the pavilion, greeted attendees. Capable of supporting 5 languages and offering non-contact vital measurement, "Miraiya Links" garnered significant interest from the guests.

Governor Yoshimura, who experienced the AI concierge service, expressed his expectations, saying, "I look forward to seeing its performance at the Expo."

## <About Osaka Healthcare Pavilion>

"REBORN," which is the theme of participation for the pavilion, includes the meaning that "People will be reborn" and "We will take a new step forward."

The Expo will be an opportunity for all “People” to reconsider their own way of life, discover and reaffirm their own values and purpose in life, and change their motivation and awareness for self-realization, and develop initiatives that contribute to their "REBORN" as a new individuals.

Name: Osaka Healthcare Pavilion - Nest for Reborn

Date: April 13 (Sun.) to October 13 (Mon.), 2025

Venue: Yumeshima (Osaka Bay Area)

### ■Functions of AI Concierge Robot "Miraiya Links"

“Miraiya Links” is the AI robot that integrates cutting-edge technology developed by our group company, OUTSOURCING TECHNOLOGY Inc.

With its approachable character and futuristic design, combined with advanced conversation capabilities, it provides concierge and healthcare services.

- Equipped with a multilingual voice input/output interface, enabling smooth communication with customers from around the world.
- Utilizing interactive and emotionally expressive 3D digital human technology, it achieves high empathy with users.
- Featuring non-contact vital sensing functions powered by biometric data analysis AI, it can measure and display the user's heart rate, blood pressure, blood oxygen level, blood sugar level, and lactate level.

Supported Languages: Japanese, English, French, Korean, Chinese

### ■Future Outlook

OUTSOURCING will provide not only a comfortable technology experience for visitors from around the world at the Osaka Healthcare Pavilion by offering multilingual concierge services that break down language barriers, as well as healthcare services utilizing non-contact vital sensing functions, but also an opportunity to reflect on our health, and promote increased awareness of better lifestyles.
